Economic Reality: Facts Are Stubborn Things

By Dr. Larry Bates, Publisher and Editor

We are bombarded daily by “spinmeisters” in the government and on Wall Street with a carefully orchestrated disinformation campaign that seeks to promote more control of your economic and social behavior. Many of us on an annual basis go to our physicians for an annual checkup and generally as a part of that process we have several tests run to get a true picture of our personal health.

In the following chart, we have examined and tested key components of our economic health in the aftermath of national control by a Democrat administration and Democrat Congress. Again, facts are stubborn things. Here are the data on the impact socialist-controlled government has had on the economic health of all Americans.

	Jan.'09	Today	% Chg.	Source
Avg. retail price/gallon gas in U.S.	\$1.83	\$3.104	69.6%	1

National debt, in trillions	\$10.627	\$14.052	32.2%	14

Just take the last item above: In the last two years we have accumulated national debt at a rate more than 27 times as fast as during our nation's entire history. What does "over 27 times as fast" mean? If you are on a freeway driving 70 mph in the right lane and a car passes you in the left lane going 27 times faster, it would be doing 1890 mph. *The direction and speed of "change" by Obama and Company are disastrous!*

We are truly a nation in crisis. You must immediately implement strategies to avoid being a victim of the coming disaster. MER readers may call 800-325-0919, Ext. 7470 and request the free 30-minute DVD, "A Nation in Crisis." Share the information with your family and friends.
